

For Your Health

Medical Insurance

VTC offers medical insurance to eligible employees and their dependents on a premium cost share basis. The current plan is a PPO plan with Health Net Insurance which allows employees to receive treatment from both in-network and out-of-network medical providers.

Pharmacy

A prescription drug plan is offered through the medical insurance. It allows the employee to fill prescriptions at any pharmacy of their choosing. The plan also allows for a mail-order program and 90-day refills which results in a cost savings to the employee.

Dental Insurance

VTC offers dental insurance to eligible employees and their dependents through Principal Dental. While the selection of in-network dental providers is extensive, employees may select any dental provider. In-network choices will maximize savings and reduce out-of-pocket costs. Premiums for the employee are paid by VTC.

Vision Insurance

VTC offers eligible employees and their dependents vision insurance coverage through Blue View Vision. Premiums for the employee are paid by VTC.
